Appraisal of the state of business (slider)

online only

The presentation of the online-Slider changed over the last years (e.g. sometimes a dash was displayed in the middle of the slider or the exact number that was clicked). Therefore an accumulation at 50 and other round figures is observable. Without these features displayed the distribution is smoother.

01/2017-12/2018: presentation with dash in the middle, with the exact number clicked and label in the middle of the slider

since 01/2019 presentation without dash in the middle, without the exact number clicked but with label in the middle of the slider

since 10/2000 Number of employed persons (incl. helping family members, apprentices, temporary employees)**: We occupy about persons in our company.										Further information employees *East 2001: monthly survey **since 02/2006 Even though the data is only inquired annually, they appear in the dataset monthly. The reason for this is that the annual data is transmitted to every month manually The data of the current survey are generally transmitted two to three months after the inquiry Example: for November and December 2007 the variable empl contains the value of the inquiry from November 2006. Since January 2008 the variable empl contains the value of the survey from November 2007. ***East 07/1998 to 01/2006 State: end of the month of the survey
